## Arrow Route Improvement Project Approved

**SAN BERNARDINO** – On Tuesday, the Board of Supervisors approved a \$1.9-million Public Works project that includes rehabbing about three miles of pavement on Arrow Route in unincorporated Fontana and reconstructing five intersections on the roadway.

Crews are scheduled to begin grinding and reapplying asphalt on Arrow Route between Hemlock and Beech avenues in mid-October. Crews will also reconstruct the intersections at Cottonwood, Mulberry, Calabash, Banana and Almond avenues. The project will take about four months to complete.

“This is a major road improvement project, so residents and businesses in the area should anticipate some inconveniences during construction,” said Board of Supervisors Chairman Paul Biane, who represents unincorporated Fontana as the County’s Second District Supervisor. “However, the reward will be a much smoother roadway, and I’m sure that’s something everyone living or working in the area will greatly appreciate.”

Funding for the Arrow Route improvement project comes from the County’s share of Measure I, a half-cent, voter-approved sales tax used for transportation projects in San Bernardino County.
